XA4 SERIES

ARTICULATED CAPTURE ARM

Diversitech's XA4 series fume extraction arms provide users with an ultra-smooth articulation by either strut-supported standing fume arms or spring-assisted positioning of the hanging arm.

The fully powder-coated steel structure with spark resistant flexible joints rotates fully about the base, and features dual pivots at the source-capture hood to allow accurate positioning for best capture of smoke, fume or dust. The ring handle at the hood allows easy positioning from all sides, and the arm features an internal damper for fine airflow control.

Available accessories include electrical grounding, battery or wired LED lighting, and either spark or paint arresstance pre-filters mounted at the fume arm hood – All available in either 6" or 8" fume arm diameters!

Features:

- Smooth, low-friction movement
- Flanged suction hood
- Wall mounted, column mounted or portable
- Externally articulated, gas spring loaded
- Industrial swivel-base

Benefits:

- Capture-at-source for Cleaner Air
- Complies with OSHA guidelines
- Pairs with the Diversitech *FRED* line of Portable Fume Extractors

Options:

- Blowers (1200 to 2500 CFM)
- Hood mounted LED light kit
- Wall mounting bracket
- Extension booms (5' or 10')
